Air hydraulic punch tool for drainage holes in base rails for glazed patios and balconies

The Lindova H3349 is an air hydraulic hole punching tool. The design allows the user to work using rapid strokes and considerable force. The hole is burr-free.

H3349 is supplied with a 5x12 mm punch.

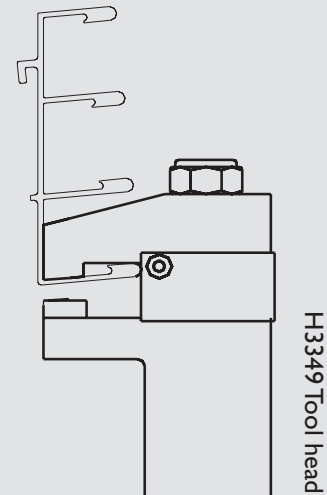

The tool is both light weight and well-balanced to minimize the strain on the user.

The tool has few moving parts and has an extremely high level of operational reliability. And because we both design and manufacture the H3349 Hole Punch ourselves, we can guarantee both a complete stock of spare parts and rapid service when required.
